

As our business is expanding, we are searching for a Sales Engineer to join our team.

Main responsibilities:

- Prepare and update quotations and technical sales documentation
- Calculate and update Sales Project specific Sales Budgets
- Identify requirements from customer technical specifications, documented and verbally
- Be part of the Sales Team and peer review related documentation
- Support the Sales Managers in communication with the customer.

Competence requirements:

- M.Sc. or B.Sc in Electrical or Automation Engineering
- Minimum 3 years of experience in similar tasks
- Fluency in English language, written and spoken
- Business minded and result driven
- Skills in negotiations, diplomatic abilities
- Able to perform under pressure and under time constraint
- Excellence in team working and communication in multicultural environments
- Ability to take responsibility and decisions independently.

WE Tech offer you a competitive salary and good employee benefits. WE offer you the agility of a young and international company with possibilities to use and develop your skills in a wide area of expertise. WE offer an inspiring workplace with a seaside location in the heart of the city of Vaasa.
