

*WE Tech Solutions is a Finnish clean-tech company that develops, sells and delivers energy efficiency solutions for the global shipping industry. The core of our solutions is based on applied variable frequency drive technology, variable speed power generation and DC-link power distribution for marine installations. WE equip ships for success. For more info visit [www.wetech.fi](http://www.wetech.fi)*

As our business is expanding, we are searching for a **Service Sales Engineer** to join our team.

**Main responsibilities:**

- Prepare quotations and related technical sales documentation
- Identify requirements in customer requests and respond on time
- Assist the Service Manager in communication with customers and suppliers
- Be a part of the Service Team handling and processing service orders
- Preparing and maintaining service sales documentation

**Requirements:**

- M.Sc. or B.Sc. in Electrical or Automation engineering
- Minimum 3 years of experience in similar tasks
- Business minded and result driven
- Excellence in team working and communication in multicultural environments
- Organisational skills with high attention to detail and sense of urgency in dealing with tasks
- Fluency in English language, written and spoken
- Experience in power generation and/or marine solutions seen as a merit

WE Tech offer you a competitive salary and good employee benefits. WE offer you the agility of a young and international company with possibilities to use and develop your skills in a wide area of expertise. WE offer an inspiring workplace with a seaside location in the heart of the city of Vaasa.
